

AI-FIRST ENGINEERING & DIGITAL GROWTH

Become the brand your market can't ignore.

One AI-powered team runs your website, ads, SEO and content — and reports to a single dashboard built around the numbers that matter.

WHY WE BUILT THIS

We got tired of agencies selling busywork.

Most agencies hand you a report full of impressions, reach and likes — numbers that look impressive and change nothing in your bank account.

So we built the opposite: one AI-powered team that owns your whole funnel — the website, the ads, the SEO, the content — and answers to a single number that matters. Revenue. When you grow, we grow. That is the entire model.

Accountable to revenue

Not likes, not impressions — the only number that pays your bills.

Transparent by default

A live dashboard and plain-English reports. You always know what works.

No lock-in contracts

Month to month. We earn next month by getting results in this one.

WHAT YOU'RE ACTUALLY BUYING

Not a vendor per channel. One team that owns the funnel end to end — so nobody can blame the other guy when the numbers don't move.

WHAT WE DO — 1 OF 2

Tell us what you need. We'll recommend the rest.

Four capability groups, one team. Most engagements start with one and grow into the others as results compound.

Software Development

Website Development

Custom builds, e-commerce, and business sites engineered for speed.

Application Development

Web and mobile products built to scale from day one.

Product & Architecture

System design, integrations, performance and security.

Artificial Intelligence

AI Agents & Agentic Workflows

Autonomous systems that do real work, with guardrails and human approval where it counts.

LLM Integration & Automation

Language models wired into your product, CRM and internal workflows.

BUILT PRODUCTION-FIRST

We assume whatever we build will eventually serve far more users than it does on launch day — so scalability, security and observability are designed in, not retrofitted.

WHAT WE DO — 2 OF 2

Growth and brand, under one roof.

Digital Marketing

Everything that gets you found, followed and bought from — planned and run as one system rather than separate channels.

Social Media & Content

Strategy, calendars, reels, carousels, community and profile optimisation — across Instagram, Facebook, LinkedIn, YouTube, Threads and X, run as one coordinated presence.

SEO & AI SEO

Organic visibility on search and on AI answer surfaces, built on technical foundations rather than keyword padding.

Performance Ads

Google and Meta campaigns measured against revenue, not impressions. Your ad spend stays yours — we never mark it up.

Brand & Design

Brand Identity

Logo, colour, typography and a visual system you actually own.

UI/UX Design

Wireframes through to production interfaces built to convert.

Creative Production

Photography direction, video, and copy that sounds like you.

ONE PLAN, NOT SIX INVOICES

Every service above runs off a single strategy, a single calendar and a single report. That is the difference between an agency and a stack of freelancers.

HOW WE BUILD YOUR BUSINESS

Nine stages, built to compound.

One end-to-end system — identity, protection, product, growth, and the automation that keeps it running.

**01
Brand Discovery**

We learn the business and its audience before building anything.

**02
Brand Identity**

Logo, colours, typography, visual system, guidelines.

**03
Brand Protection**

You own your business assets for the long run.

**04
Strategy Planning**

A complete plan before a line of code is written.

**05
UI/UX Design**

Wireframes, prototypes, flows and production interfaces.

**06
Development**

The right stack for your goals — not the trendy one.

**07
Social Presence**

Established on the platforms your customers actually use.

**08
Marketing & Growth**

Launch, measure, and compound the results.

**09
AI Automation**

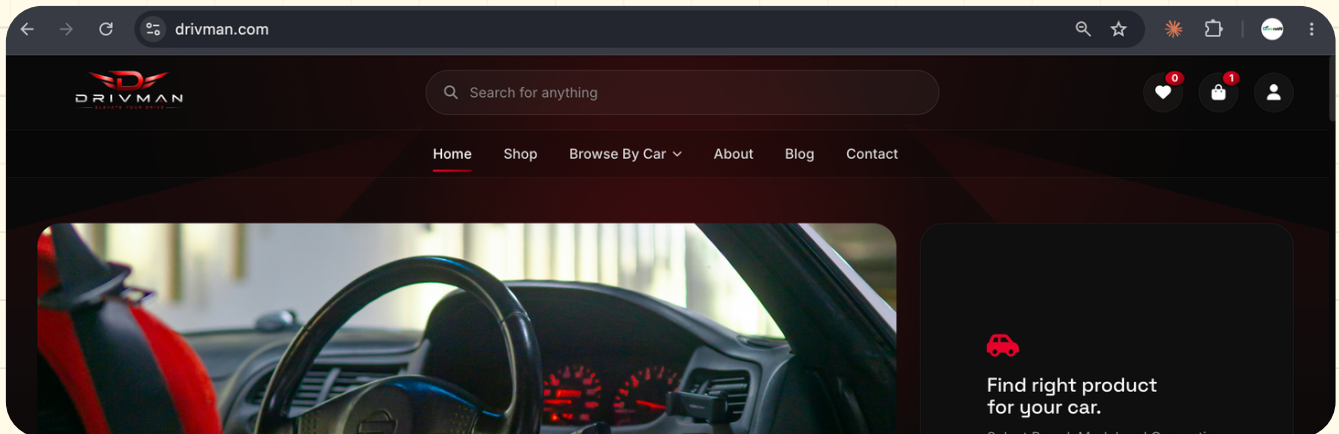

Assistants, workflow automation, lead qualification, internal tools.

From a name on a napkin to a business that runs itself — we walk every stage with you.

CASE STUDY · AUTOMOTIVE & E-COMMERCE · 3 Weeks

DRIVMAN

A store front where every part fits — exactly.

The challenge

A premium car-accessories brand entering a market ruled by universal-fit marketplace listings, where buyers can never be sure a part will actually fit their car — and where the brand owns neither the storefront nor the customer.

What we did

We built drivman.com around exact-fit discovery: a brand → model → generation fitment selector wired into the whole catalogue, product pages leading with verified fitment, and a premium identity carrying the “Engineered for the drive that matters” positioning.

Exact-fit **< 24 hrs** **2 years**

Delivered: logo and brand identity · website development · social media · Google & Meta ads

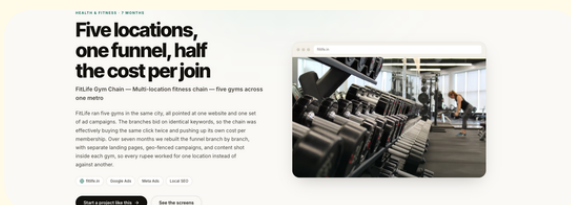

Every product is matched to the exact vehicle before checkout — most orders dispatch within 24 hours, and every part ships backed by a two-year warranty.

THE OUTCOME

SELECTED PROJECTS

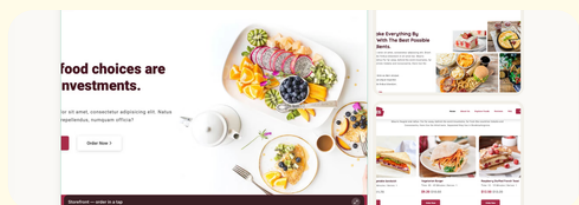

More of what we've shipped

HEALTH & FITNESS FitLife Gym Chain

IN THEIR WORDS

People say “**excellent**”

Rated 4.9 out of 5 across 43+ businesses.

“Organic traffic rose 340% in four months, and Google Ads return went from 1.8x to 4.2x.

Professional website made by **GROWNETAI** and results-driven throughout.

SA**Sanyog Aggarwal**Founder, **DRIVMAN**

“Their reels consistently perform. We added 50,000 followers in three months and tripled sales coming from social.

PP**Priya Patel**

CEO, Bloom Fashion

“They built an e-commerce site that loads in under two seconds. Conversion went from 1.2% to 3.8% immediately.

AG**Amit Gupta**

Director, FoodieHub

WHY WE PUBLISH NUMBERS

Every figure on this page came from a client's own analytics, and we can walk you through how each was measured. Ask us — that conversation tells you more about an agency than the number does.

ENGAGEMENT MODELS

How to work with us

	FIXED-SCOPE PROJECT	MONTHLY RETAINER
Best for	A defined build — website, app, AI system, brand identity	Ongoing growth — digital marketing, content, automation
Structure	Milestone-based, fixed scope and price	Monthly fee, minimum 3-month commitment
Payment	40% advance · 30% at design approval · 30% on delivery	100% monthly in advance; ad spend paid directly to platforms
You get	Weekly status, fortnightly demo, handover and 30-day warranty	Weekly status, monthly performance report, live dashboard
Ends	On acceptance and handover	Month to month after the minimum term

What happens after you say yes

01	Discovery call	30 minutes. We understand the business problem before quoting anything.
02	Recap & proposal	Recap within 24 hours; proposal with scope, exclusions, timeline and tiered options.
03	MSA + SOW	Signed digitally. One legal frame, one scope document per engagement.
04	Kickoff within 3 days	Welcome kit, access checklist, named contacts, and the plan with dates.

No contracts. No fluff. Just a plan.

Retainers run month to month after the minimum term — we earn next month by delivering this month.
